

Future Science Group

VISION IN STM PUBLISHING

BARBARA VALCELLI / ACCUCOMS

[BARBARA@ACCUCOMS.COM](mailto:BARBARA@ACCUCOMS.COM)

Publisher of  
journals, eBooks  
and eCommunities

# Introducing Future Science Group

- About Future Science Group (FSG)
- Journals
- eBooks
- eCommunities
- Contact [Barbara Valcelli [barbara@accucoms.com](mailto:barbara@accucoms.com)]

## ABOUT FUTURE SCIENCE GROUP

- Progressive publisher focusing on breakthrough medical, biotechnological and scientific research
- Advancing clinical practice and drug research by enhancing communication
- Publish journals, eBooks and eCommunities through two imprints- Future Medicine and Future Science
- Headquartered in London, global in outlook, independent in spirit

# Future Medicine Journals

## BENEFITS OF THE FUTURE SCIENCE GROUP JOURNAL COLLECTION

- Covering niche areas of research in emerging fields such as Nanomedicine (IF: 5.824) and Regenerative Medicine (IF: 3.5)
- MEDLINE indexed
- High impact factored
- Leading experts shape our journal content

Editorial board members represent the world's most prestigious organizations, including;

- National Institutes of Health, USA
- Cedars-Sinai Medical Center, USA
- Harvard University, USA
- Cancer Research UK, UK
- University College London, UK
- Cambridge University, UK
- Karolinska Institute, Sweden
- Leiden University, The Netherlands
- National Cancer Center, Japan
- Seoul National University, Korea
- Peking University, China

## Future Medicine Collection

28 journals

### Future Medicine Essentials

- Nanomedicine
- Regenerative Medicine
- Pharmacogenomics & Personalized Medicine

### Future Series

- Future Cardiology
- Future Microbiology
- Future Neurology
- Future Oncology
- Future Virology

### Additional Journals

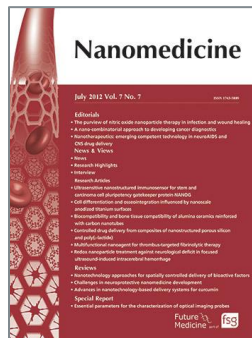

- Clinical Lipidology
- Diabetes Management
- Intl Journal of Clinical Rheumatology
- Interventional Cardiology
- Pain Management
- Women's Health

### Oncology Collection

- Breast Cancer Management
- Hepatic Oncology
- Intl Journal of Endocrine Oncology
- Intl Journal of Hematologic Oncology
- Lung Cancer Management
- Melanoma Management
- CNS Oncology
- Colorectal Cancer

### Journals for the post-genomic era

- Biomarkers in Medicine
- Epigenomics
- Immunotherapy
- Journal of Comparative Effectiveness Research
- Neurodegenerative Disease Management

# Information needs in clinical and translational medicine and the biosciences

## Future Medicine Essentials

The three journals in the Future Medicine Essentials series represent three of the fastest growing areas of bioscience. Amongst the first journals in their respective fields, these journals feature high Impact Factors, MEDLINE-indexing and significant readership.

**Pharmacogenomics**  
 MEDLINE-indexed  
 Impact Factor: 3.425  
 18 issues per year  
 20,930 abstract views/month

Research and comment on the role of genetics in drug response

**Nanomedicine**  
 MEDLINE-indexed  
 Impact Factor: 5.824  
 24 issues per year  
 26,364 abstract views/month

Advances in medical nanoscale-structured material and devices

**Regenerative Medicine**  
 MEDLINE-indexed  
 Impact Factor: 3.5  
 8 issues per year  
 11,015 abstract views/month

Up-to-date research for the translation of stem cell therapies from the laboratory to patients

# Information needs in clinical and translational medicine and the biosciences

## Future Series

The journals in the Future Series adopt a forward-looking stance toward the scientific and clinical issues, together with the economic and policy issues that confront us in a new era of care.

Delivered in a concise format, Future Series journals are shaped to meet the needs of time-constrained practitioners and policy-makers.

### Future Microbiology

MEDLINE-indexed  
Impact Factor: 3.819  
12 issues per year  
17,450 abstract views/month

Covers microbiological areas including all pathogen types and microbe-host interactions

### Future Oncology

MEDLINE-indexed  
Impact Factor: 2.611  
24 issues per year  
22,555 abstract views/month

Provides updates on oncology research, ranging from the bench to the bedside  
Associated eCommunity: Oncology Central

### Future Virology

Impact Factor: 1.0  
12 issues per year  
4075 abstract views/month

Latest updates in virology, infectious disease and immunology analysis

MEDLINE-indexed journals for the post-genomic era

### Epigenomics

MEDLINE-indexed  
 Impact Factor: 5.215  
 8 issues per year  
 7435 abstract views/month

Focus on the description and deciphering of genome-wide interactions

### Journal of Comparative Effectiveness Research

MEDLINE-indexed  
 Impact Factor: 1.119  
 6 issues per year  
 2250 abstract views/month

The only MEDLINE-indexed journal focused specifically on comparative effectiveness research

Future Science Journals

Cutting-edge coverage of  
postgenomic scientific and  
medical information

[www.futurescience.com](http://www.futurescience.com)

## Future Science Collection

6 Journals, 27 eBooks

Last 12 months:

- 1.3 million page views
- 340,000 users
- 520,000 abstract views
- 230,000 full-text downloads

### Journals

- Bioanalysis
- Clinical Investigation
- Future Medicinal Chemistry
- Pharmaceutical Bioprocessing
- Pharmaceutical Patent Analyst
- Therapeutic Delivery

Applied science and intellectual property issues in R&D

## Future Science Essentials

### Bioanalysis

MEDLINE-indexed  
Impact Factor: 3.027  
24 issues per year  
16,900 abstract views/month

Scientific, technical and regulatory developments in bioanalysis

### Future Medicinal Chemistry

MEDLINE-indexed  
Impact Factor: 4.0  
18 issues per year  
12,550 abstract views/month

Design of small-molecule bioactive agents and the identification of therapeutic targets

eBooks

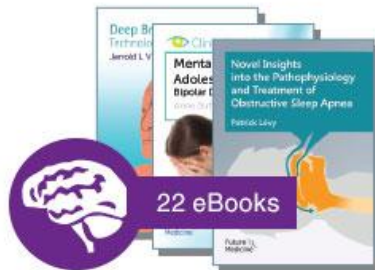

Specifically designed to  
enhance comprehension  
and aid learning

## BENEFITS OF THE FUTURE SCIENCE GROUP EBOOK COLLECTION

- No DRM
- One-time purchase with no additional maintenance fee
- Multiple simultaneous access
- Perpetual access to the purchased content
- Free MARC records for easy integration into your library catalogue
- COUNTER compliant usage statistics
- Flexible purchase options - collections and individual titles

# THE E-BOOK COLLECTION

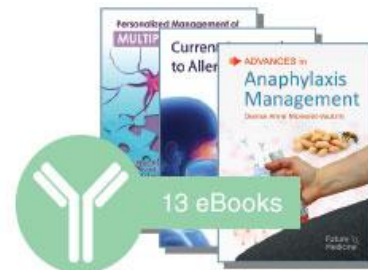

Low cost coverage of a broad range of topics

Neurology

Analytical Chemistry

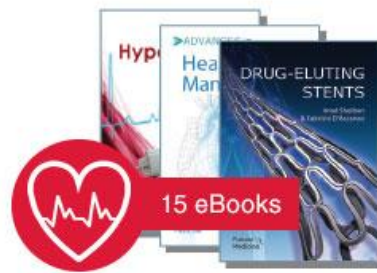

Immunology

Oncology

Pharmaceutical Science

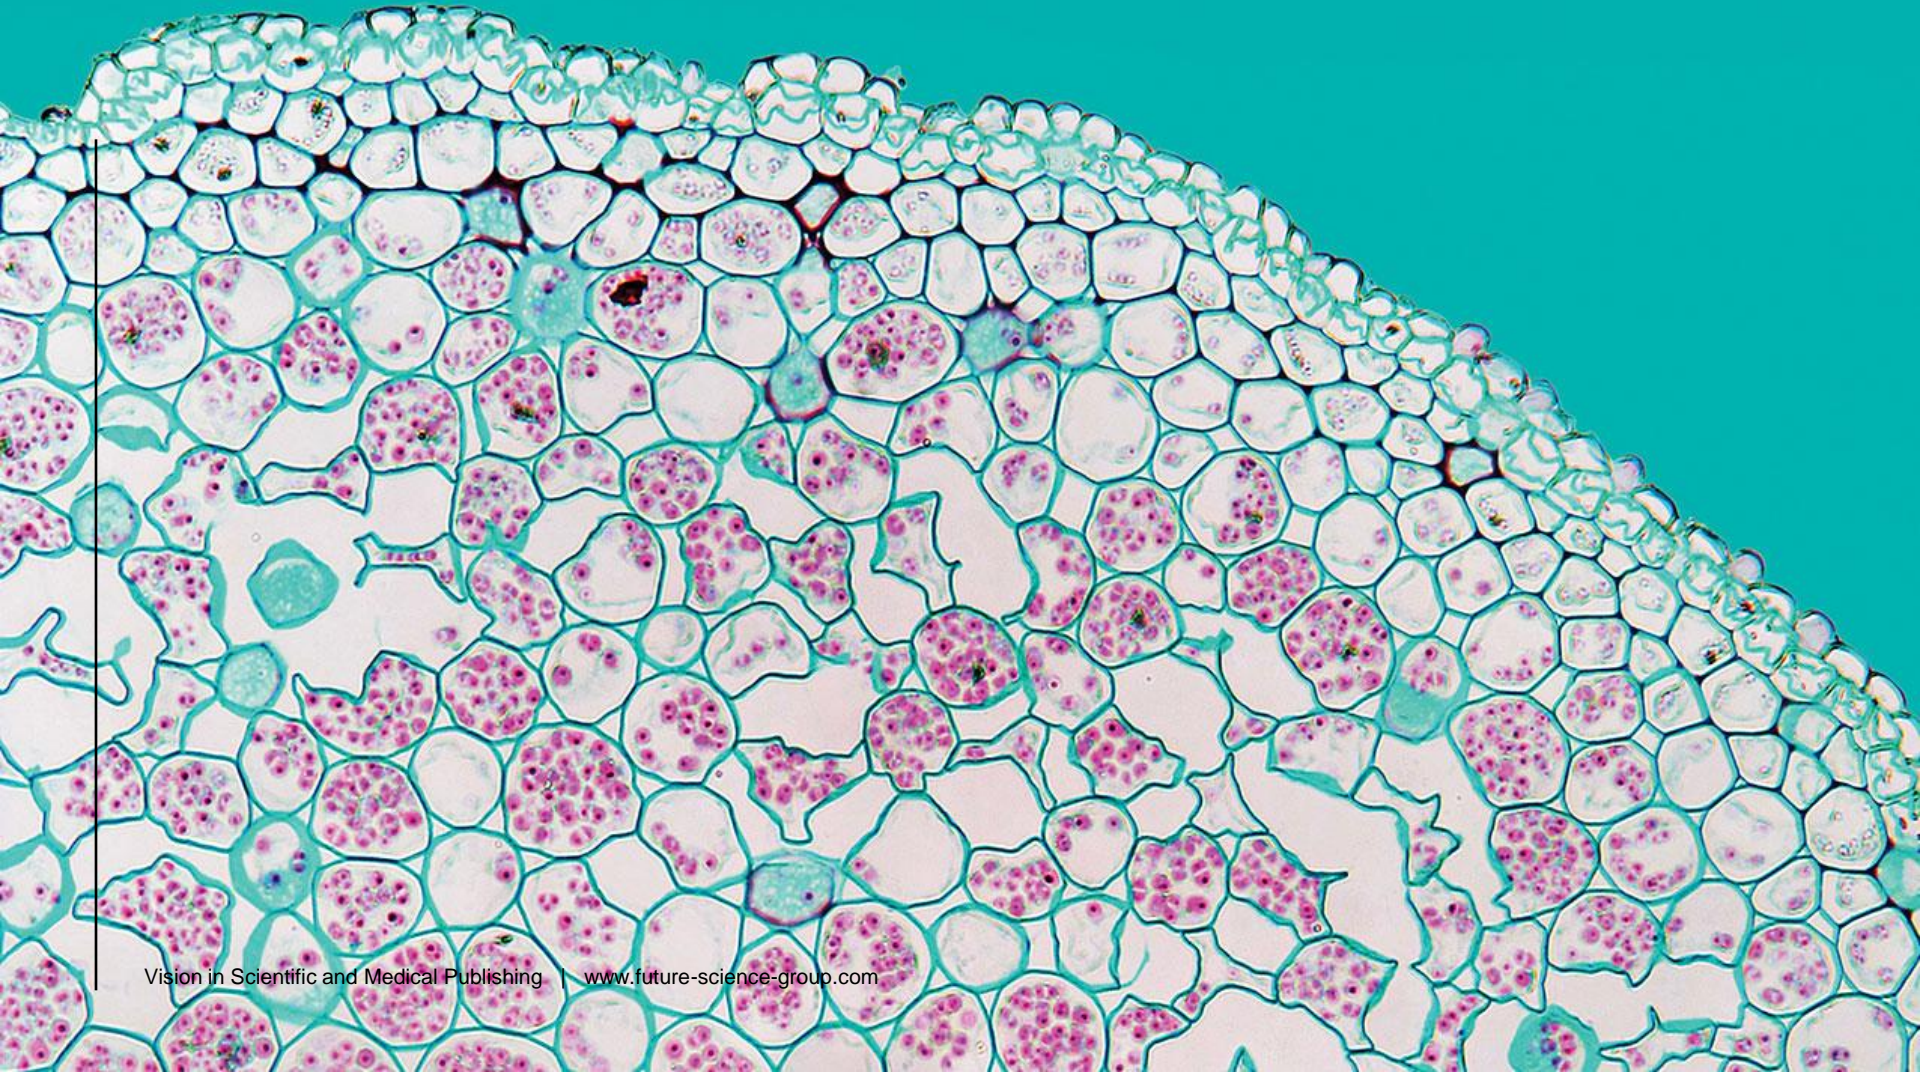

Cardiology

Environmental Science

Infection

Specifically designed to  
enhance comprehension  
and aid learning

## BENEFITS OF THE FUTURE SCIENCE GROUP E-COMMUNITIES

- Free-of-charge online information centres built to meet the specific needs of niche scientific and medical communities
- Offers easy access to breaking news, developments and peer-reviewed articles
- Provides a unique and unparalleled platform for medical communities to share insights, discuss the latest research, and help move the field forward
- Benefits from the experience and support of the Future Science Group editorial team who are involved in news, reviews and engaging discussions.

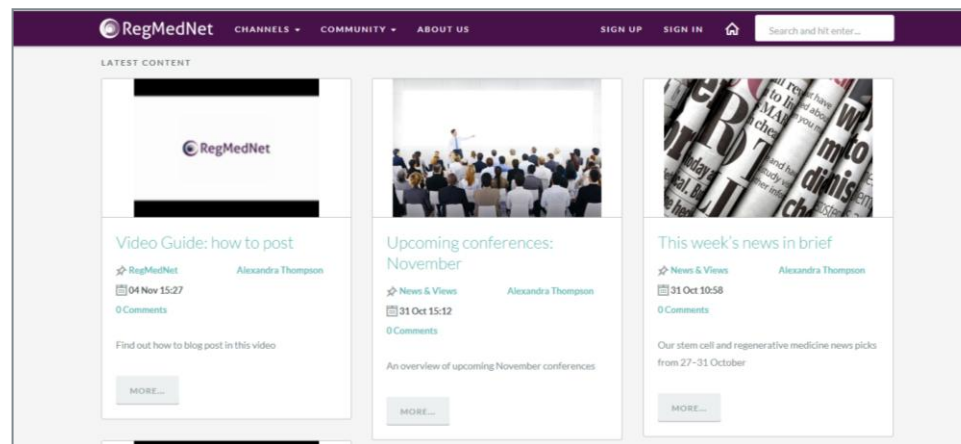

**Bioanalysis Zone** is the online home of Bioanalysis, bringing together:

- The latest news, views, research and products
- A forum for the community to discuss the development of this fast-moving field
- Topical webinars on new technology and scientific advances
- Peer-reviewed content from the Bioanalysis journal (MEDLINE-indexed, IF 3.027)

RegMedNet is the source of a range of regenerative information focusing on:

- Translational science
- Covering hot topics such as regulation, clinical trials, stem cell tourism, and industry news.
- Building and empowering knowledge
- Providing members with access to free information and resources easily and efficiently.

**Oncology Central** is an online resource powered by Future Science Group and provides:

- Help for members to stay up-to-date with industry developments.
- A platform exclusively for medical professionals with an interest in oncology, endorsed by an expanding board of expert Ambassadors from across the globe.
- Access to select journal articles recently published across all the FSG titles.
- A tailored homepage, regular news updates and exciting multimedia content.
