

AUTHORIZED USERS

AIP grants to the Subscriber and Authorized Users at participating institutions online access to titles listed in Appendix A. This grant extends only to the Subscriber and to Authorized Users at participating institutions and may not be transferred or extended to others. "Authorized Users" means only the employees, faculty and students officially affiliated with the Subscriber, and persons with legal access to the Subscriber' library collections and facilities on-site, using an IP address within the ranges identified in Appendix C, or off-site via Secure Authentication and who are affiliated with the participating institutions (whether on a permanent or temporary basis).

Persons who are not a current member of the Subscriber, but who are permitted to access the Subscriber information services from computer terminals within the physical premises of the participating institutions, 'Walk-In Users', are also deemed to be Authorized Users, only for the time they are within these physical premises. "Walk-In Users" may not be given means to access the Licensed Material when they are not within these physical premises. The Subscriber will exercise reasonable vigilance and shall be responsible for all access control and security measures necessary to ensure that the Institutions' IP addresses are not used by anyone other than Authorized Users. Subscriber warrant and represent that common and reasonable methods will be used to inform Authorized Users of general terms and conditions for the use of the Licensed Material that are consistent with this Agreement. Furthermore, Subscriber will make every attempt to enforce the terms of this Agreement upon receiving information from AIP or any other source that reasonably indicates that one or more Authorized Users is in violation of the terms of this Agreement.

PERMITTED USE

- a. Authorized Users are permitted online access to the Licensed Material listed in Appendix A, and may download, save, or print text, search results, or other information solely for their private use or research. The Subscriber and Authorized Users may only use this online access in a way that conforms with all applicable laws and regulations.
- b. The Publisher of each online journal listed in Appendix A grants the Subscriber and Authorized Users permission to use brief quotations from the content of the online journals with the customary acknowledgment of the source, and to copy and transmit content from individual articles in "person-to-person" and non-systematic scholarly exchanges of information between Authorized Users and specific individuals.
- c. Subscriber may supply a copy of an article to a library that is not a participating Institution only under the following conditions:
 1. Only a hard copy printed from the electronic files of the Licensed Material may be supplied to another library, by mail, fax, or Ariel. Under no circumstance may an AIP-prepared electronic article file be transmitted in digital form by a Subscriber library to a non-participating library or to any other person or institution.
 2. Subscriber may not supply an article to another library on a commercial, revenue-generating basis without full payment of the Publisher's royalty, as indicated by the Item Fee Code for each publication.
 3. No article may be supplied to a corporation or other non-academic institution without full payment of the Publisher's royalty.
 4. Subscriber may not remove, obscure or modify copyright notices that are part of an article to be printed and supplied to another library.
 5. Only article requests from non-participating academic libraries within Italy may be fulfilled, under the conditions indicated above.
- d. Faculty at participating institutions may include articles from the Licensed Material in anthologies (coursepacks) in print or digital form for distribution to Authorized Users for their use in connection with classroom instruction or in reserves (print or digital) set up by Subscriber libraries for access by Authorized Users in connection with specific courses offered by the Subscriber. Copies of items in digital form which are included in online coursepacks or reserves will be deleted by the Subscriber after the end of the semester in which the related course concludes.
- e. CRUI agrees that use of the Licensed Material by the participating Institutions or Authorized Users other than indicated above is a violation of the terms of this Agreement.

6. PROHIBITIONS ON CERTAIN USE

- a. Licensee shall not knowingly permit anyone other than Authorized Users to use the Licensed

Materials. Altering, recompiling, reselling, publishing or republishing of any journal text, search result, or other information from the Licensed Materials, or any portion thereof, in any form or medium, is prohibited.

b. Systematic or programmatic downloading, printing, transmitting, or copying of the Licensed Material is prohibited. "Systematic or Programmatic" means downloading, printing, transmitting, or copying activity of which the intent or the effect is to capture, reproduce, or transfer the entire output of a journal volume, a journal issue, or a journal topical section, or sequential or cumulative search results, or collections of abstracts, articles, or tables of contents. Other such systematic or programmatic use of the Licensed Material that interferes with the access of Authorized Users or that may affect the performance of the Publishers' systems, for example, the use of "robots" to index content, or downloading or attempting to download large amounts of material in a short period of time, is prohibited. Redistribution of the Licensed Material, except as permitted in Section 5, without permission of the Publishers and/or payment of a royalty to the Publishers or to the appropriate Reproduction Rights Organization, is prohibited.

c. All rights not expressly granted herein are reserved to the stated Publisher of the Licensed Material. The Subscriber and Authorized Users may not circumvent AIP's access control systems or the Publishers' systems or services to make any attempt to gain unauthorized access to any other system or network.
